MARKET AND COMMENTARY

We are pleased to report that the fund has had a very good start to the year and for the half year ended 31st December 2010 the fund is up 42.25% (Gross) outperforming the All Ordinaries Accumulation Index by 27.79%. During the month of December, Cadence Capital Limited returned a positive gross performance of +13.84% compared to an increase in the All Ordinaries Accumulation Index of +3.80% and an increase in the Small Ordinaries Accumulation Index of +7.07%.

For the five years and three months to 31st December 2010, Cadence Capital Limited has generated a gross performance of 18.13% per annum, outperforming the All Ordinaries Accumulation Index by 12.84% per annum.

The fund finished the month 99.50% long and with no shorts, i.e. net long exposure of 99.50%. The net long exposure for November 2010 was 98.44%.

CADENCE CAPITAL LIMITED NEWS

On Friday the 17th December 2010, Cadence Capital Limited was quoted in the Australian Financial Review in an article titled; 'Big Winnings from Small Share Raisings'. This article addressed, in some detail, the recapitalisation of small market capitalisation stocks. The performance of the small market capitalisation resource stocks were analysed in some detail, and it is fair to say that this sector has greatly assisted the performance of the Small Ordinaries Index over the last few months of the calendar year. Late in 2010 there was a clear indication that fresh capital was being employed at the riskier end of the investment spectrum. To read this article in detail please visit the 'News' section of the Cadence Capital Limited website at www.cadencecapital.com.au
